Subject: DSC workshop questions
Date: Sunday, September 18, 2011 9:33:06 AM

To members of the Delta stewardship Council and staff. In attending your workshop in Sacramento Thursday September fifteenth I did not get a clear understanding of some of the covered actions.

Is a diversion of water either destined to the Delta or from the Delta a covered action? It was unclear to me whether Hetch Hetchy and the Mekolumne aqueduct and associated storages are exempt from covered actions by statute?

Please return me a clear explanation as to the potential exemption of upstream diverters that pipeline around and under the Delta. Thank you for any clarification you can provide me. Jim
